

Walmart

As a Data Analyst for the Walmart Photo Center team, you are tasked with evaluating the performance of personalized photo gifts....

Question 1: For each personalized photo gift product, what is the total quantity purchased in April 2024? This result will provide a clear measure of product performance for our inventory strategies.

```
SELECT
    product_id,
    SUM(quantity) AS total_quantity_purchased
FROM fct_photo_gift_sales
WHERE purchase_date BETWEEN '2024-04-01' AND '2024-04-30'
GROUP BY product_id;
```

Question 2: What is the maximum number of personalized photo gifts purchased in a single transaction during April 2024? This information will highlight peak purchasing behavior for individual transactions.

```
SELECT  
    MAX(quantity) AS max_items_in_single_transaction  
FROM fct_photo_gift_sales  
WHERE purchase_date BETWEEN '2024-04-01' AND '2024-04-30';
```

Question 3: What is the overall average number of personalized photo gifts purchased per customer during April 2024? That is, for each customer, calculate the total number of personalized photo gifts they purchased in April 2024 — then return the average of those values across all customer.

```
SELECT
    AVG(total_qty_per_customer) AS average_per_customer
FROM (
    SELECT
        customer_id,
        SUM(quantity) AS total_qty_per_customer
    FROM fct_photo_gift_sales
    WHERE purchase_date BETWEEN '2024-04-01' AND '2024-04-30'
    GROUP BY customer_id
) AS customer_totals;
```
