As a Product Analyst for Microsoft Teams, you are collaborating with the security team to enhance data security in file sharing and co-editing activities....

Question 1: What is the average length of the file names shared for each organizational segment in January 2024?

```
SELECT
    o.segment AS segment,
    AVG(LENGTH(fs.file_name)) AS avg_length_of_file_names
FROM fct_file_sharing AS fs
LEFT JOIN dim_organization AS o
    ON fs.organization_id = o.organization_id
WHERE shared_date BETWEEN '2024-01-01' AND '2024-01-31'
GROUP BY o.segment;
```

Question 2: How many files were shared with names that start with the same prefix as the organization name, concatenated with a hyphen, in February 2024?

```
SELECT
    COUNT(fs.file_name) AS matching_file_count
FROM fct_file_sharing AS fs
INNER JOIN dim_organization AS o
    ON fs.organization_id = o.organization_id
WHERE
    fs.shared_date BETWEEN '2024-02-01' AND '2024-02-29'
    AND fs.file_name LIKE o.organization_name || '-%';
```

Question 3: Identify the top 3 organizational segments with the highest number of files shared where the co-editing user is NULL, indicating a potential security risk, during the first quarter of 2024.

```
SELECT
    o.segment AS segment,
    COUNT(fs.file_id) AS highest_number_of_files_shared
FROM fct_file_sharing AS fs
INNER JOIN dim_organization AS o
    ON fs.organization_id = o.organization_id
WHERE
    fs.shared_date BETWEEN '2024-01-01' AND '2024-03-31'
    AND fs.co_editing_user_id IS NULL
GROUP BY o.segment
ORDER BY highest_number_of_files_shared DESC
LIMIT 3;
```
